

# If You're In-Store for More...

**Our customer portal and shopping cart extends your core software to maximize efficiency and your customer service.**

Your customers are increasingly comfortable with paying online. Provide them a place to view, pay, download, print and request changes to their events online. Plus, convenient and easy online ordering has become a necessity for many caterers. Reach dazzling new heights with Elecate's fully integrated online store, an extension of our core management software.

## A Customer Portal, or Online Store with both

- 
**Effortless Shopping and Ordering:** Engage customers with an intuitive and beautiful online store that makes shopping, ordering, and secure payments a seamless part of their journey.
- 
**Streamlined Production and Fulfillment:** Automate the communication between orders and your operations, ensuring precision in preparation and logistics with reduced manual entries for faster turns.
- 
**Fully Integrated Payments:** Include our world-class payment processing and gateway partner to receive seamless checkout features and timely deposits to keep business moving.
- 
**Display Allergens, Calories and Other Unique Info:** When your ingredients and recipes are populated, we can designate any preferred fields to pass to the interface so the customer has the food item's important attributes up front.
- 
**Supports Your Business policies:** Easy reporting for per diems and more.
- 
**Integrated Dashboard:** Gain real-time insights with an integrated dashboard that monitors customer preferences, order statuses, enabling informed and proactive decision-making.
